Passo 3 – Salve seu QR Code

Passo 3 – Salve seu QR Code

TUDO PRONTO!

Agora farei leitura com meu celular do QR Code salvo para garantir que gerei e salvei corretamente

Passo 3 – Salve seu QR Code

Os 2 QR Codes são os mesmos, devendo levar à mesma URL ao serem lidos

Salvo no computador

Direto da página

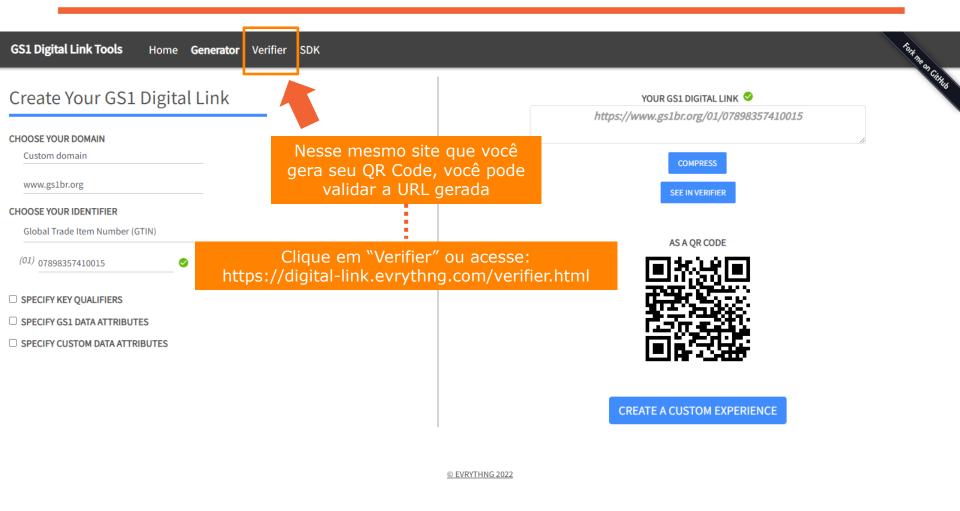

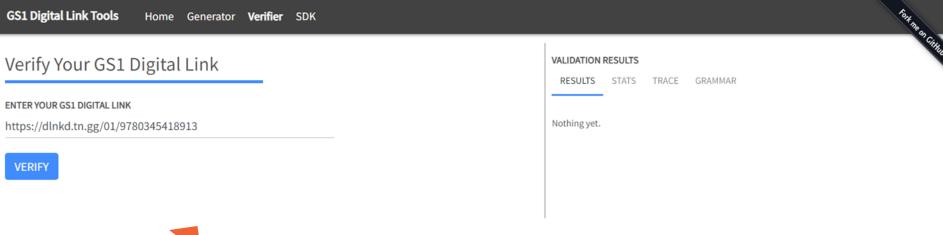

SUGESTÃO!

Valide seu QR Code

GS1 Digital Link Tools

Home Generator Verifier SDK

Verify Your GS1 Digital Link

ENTER YOUR GS1 DIGITAL LINK

https://www.gs1br.org/01/07898357410015

Se estiver tudo certo com seu QR Code deverá aparecer a mensagem "VALID", indicando que a URL está correta

VALIDATION RESULTS

RESULTS STATS TRACE GRAMMAR

state item	value	description
parser success	true	true if the parse succeeded, false otherwise NOTE: for success, entire string must be matched
parser state	матсн	EMPTY, MATCH or NOMATCH
string length	39	length of the input (sub)string
matched length	39	number of input string characters matched
max matched	39	maximum number of input string characters matched
max tree depth	17	maximum depth of the parse tree reached
node hits	354	number of parse tree node hits (opcode function calls)
input length	39	length of full input string
sub-string begin	0	sub-string first character index
sub-string end	39	sub-string end-of-string index
sub-string length	39	sub-string length

The check digit of the identifier is invalid. You can calculate a valid check digit here.

Se os Padrões GS1 estiverem errados, aparecerá "INVALID" e uma mensagem logo abaixo que pode ajudar a identificar o erro
